

A woman with long, dark, curly hair is captured in mid-air, jumping against a light-colored stone wall. She is wearing a pink long-sleeved crop top, grey leggings with a colorful vertical stripe on the side, and bright pink sneakers. Her arms are extended forward, and her head is tilted back, looking upwards. The background is a textured stone wall, and the ground is paved with dark cobblestones.

What is **Myzone**?

Myzone aims to help people feel-good about exercise through technology. Myzone is an innovative wearable heart rate based system that uses wireless and cloud based technology to accurately and conveniently monitor physical activity. Myzone delivers a fully connected solution for fitness club operators and is respected as the fitness industry's wearable of choice. It is successful due to its accuracy at **99.4%**. It is the tool for anyone who wants an accurate, gamified and motivating wearable. Myzone monitors heart rate, calories and time exercising in real time and converts that into Myzone Effort Points (MEPs). MEPs focus on rewarding effort rather than fitness.

How are we **different**?

Unlike many other activity trackers, Myzone is the only fitness tracking app based on the World Health Organization's Physical Activity Guidelines. It uses a game-based platform and social experience that rewards effort not fitness, motivating users to reach their personal bests. The versatile system motivates and encourages users to reach their personal bests by earning MEPs for virtually any activity, including running, cycling, rowing and even HIIT.

How you may feel **training in the Myzone Zones**

Intensity	How you'll feel
100% to 90%	You're pushing yourself to your limits and can only sustain this activity for a short duration of time. Because of excessive metabolic byproduct buildup in your muscles, you will fatigue easily.
89% to 80%	Breathless, with difficulty saying more than 2-4 words in a row. Your hard-working muscles will "burn" due to metabolic byproduct buildup. Additional mental focus is required.
79% to 70%	Breathless, but able to speak a sentence of 4+ words. Muscles may "burn" slightly due to small amount of excessive metabolic byproduct buildup. You can sustain this activity for 20-60 minutes.
69% to 60%	You're starting to feel winded, but still able to sing a song or easily recite 3-4 sentences. Muscles are warmed up and light sweating is likely.
59% to 50%	Exercise at this level is enjoyable and light, easily maintained for upwards of 60-120 minutes without fatigue.
49% to 50%	Completely comfortable. This is how you normally feel when you're resting.

Find your Max Heart Rate:
211 - 0.64 x age

How to use Myzone

Learn how to use Myzone at <http://myzone.org/getting-started/>

or scan **QR Code**

Myzone **Benefits**

View your calories and effort in real time.

Connect to third party equipment & smartphone apps for maximum versatility.

Achieve Myzone Status ranking based on effort not fitness.

Store up to 16 hours of activity data.

Set goals and compete with others by measuring effort levels.

Receive email workout summary.

THE **FIVE**
MYZONE
ZONES

“
Seeing all those MEPs and hard work makes me feel good because you can physically see the work you’re putting - **Connor Kinglsey, Brindleyplace Bannatyne.**

The Myzone **App**

The Myzone Tile is your all-in-one exercise tracking tool, allowing you to see your nickname, calories burned, current effort level, heart rate, and MEPs. By viewing your live tile or watching the live group display at the gym, you can easily see whether you should be working harder or giving yourself a rest.

Myzone is
**Reliable &
Rechargeable**

The **MZ-3** is rechargeable. The charging cable in the box connects to any USB power source. When the light on the **MZ-3** turns green your belt is fully charged. You can expect up to 6 months of battery life from one charge.

FUN FACT

Your Myzone will connect to 3rd party equipment for maximum versatility!

Myzone **status level**

Your Myzone status is determined by how consistent you are with your exercise on a monthly basis. If you earn 1300 MEPs or Myzone Effort Points in a month, you meet the minimum requirement for physical activity specified by the **World Health Organization** and you make progress towards the next Myzone status level.

Your status number indicates how many months in a row you have achieved the 1300 MEPs on your current status. If you do not hit at least 1300 MEPs for any given month, your status will drop down to 0 (you maintain your current status, but lose any months you have gained towards attaining the next status).

Challenge yourself or friends

Set yourself up for success by creating personal goals via the Myzone app. As you exercise, you can see if you're on track to meet your **'Monthly Target'**. This information is displayed in the **'My Stats'** portion of the app. If the outer ring of the circle is red, you are behind on your personal goal. If the outer ring of the circle is green, you are on track to meet your personal goal.

Myzone in your club

When you wear your Myzone physical activity belt within a Myzone-enabled section of your club, your information will be streamed to displays in the form of a color-coded, easy-to-read tile.

Not at the club? No problem. We also have an app available on both Android and iPhone. The intuitive Myzone app makes it easy for you to stream your activity, upload your data, and review your results.

When outside the club or away from the Myzone app, the Myzone MZ-3 will store up to 16 hours of activity data.

MYZONE SOCIAL FEATURES

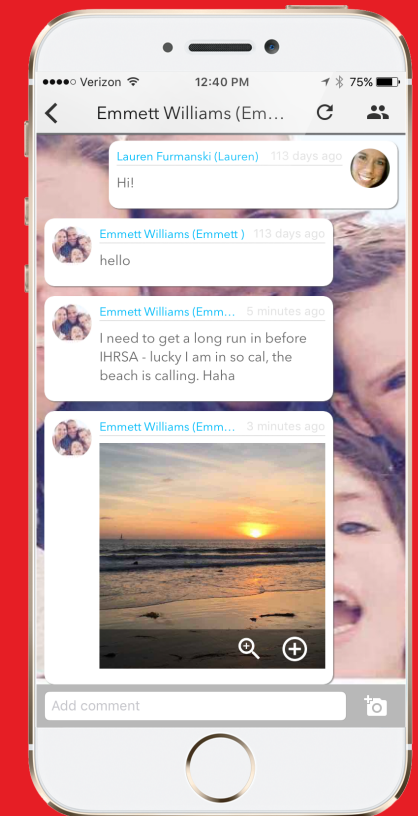

Challenge your friends and keep track of where you fall on the **Leaderboard**. You can easily see how much effort you need to put in to beat out the competition and stay on top!

All of the uploaded data from your belt can be viewed in your **Activity Calendar**. By viewing your daily, weekly and monthly progress, you'll stay informed and on track to meet your fitness goals.

Review, comment and 'heart' your social connections workouts via the Home feed.

Communicate privately with gym goers via the **MZChat** feature within the Myzone app.

FUN FACT

Our research has shown that Myzone users who have more than **10** social contacts are **62%** more likely to hit their numbers than users without connections.
